## SUMMARY

Front-End Developer specializing in React, Next.js, and TypeScript with a strong focus on performance optimization and user-centered design. I craft visually engaging, high-performing web experiences that merge modern aesthetics with technical precision. My recent projects include dynamic form funnels, animated landing pages, and role-based web apps, all developed with an emphasis on scalability and smooth user interaction. Recognized for delivering clean, maintainable code and consistent results, I bring both creative vision and engineering discipline to every project.

## SKILLS

React, Next.js, Cursor, TypeScript, Tailwind CSS, React Context, REST APIs, Responsive Design, HTML, CSS, JavaScript, Git, Figma, Agile methodologies, UI/UX, Web design, Web development

## WORK EXPERIENCE

### Upwork

07/2025 - Present

#### *Freelance Front End Developer*

*Remote*

- Built and delivered high-performing web applications using React, Next.js, and TypeScript
- Delivered multiple projects, including dynamic form funnels and animated landing pages earning over \$1,000 through successful client engagements

### Zenmira BT

03/2025 - 09/2025

#### *Front End Developer*

*Hybrid*

- Worked on 30+ page role-based web apps and dashboards using Next.js, React Hook Form, Zod, UI libraries to enable admins/users manage complex workflows and actions, collaborating with backend and UI/UX team
- Used REST APIs to retrieve data, moved client-side fetches to server-side improving security and speed

### Laodikya Web

07/2024 - 02/2025

#### *Freelance Web Designer & Developer*

*Hybrid*

- Designed and developed responsive, user-friendly websites for local businesses
- Led client communications and full development lifecycle from planning to delivery
- Implemented accessible and SEO-friendly web designs and developments across multiple projects

## PROJECT HIGHLIGHTS

### **Ethera Supplements**

[ethera-supplements.vercel.app](https://ethera-supplements.vercel.app)

#### *Fictional e-commerce brand with immersive 3D visuals*

- Designed in Figma, Built with Next.js, Three.js and Motion to deliver dynamic, animation-rich user experience
- Used AI-generated imagery, 3D assets and copywriting to enhance storytelling and branding
- Used Zustand and React Context for state management in complex logics such as preloader and cart

### **Zen Tattoo**

[zen-tattoo.vercel.app](https://zen-tattoo.vercel.app)

#### *Minimalist one-page business site*

- Built with Next.js and Framer Motion; used immersive animations to craft a distinctive brand identity
