ABOUT

React/Next.js developer with a focus on creating visually appealing and user-friendly web interfaces. My expertise extends to UI/UX design and full-stack development when projects demand it. I have a knack for quickly learning new stuff and applying them to make innovative solutions. My approach combines creative design with functional implementation, resulting in engaging and efficient web applications.

SKILLS

HTML, CSS, SASS, JavaScript, React, TypeScript, Next.js, Astro, Node.js, MongoDB, Framer Motion, Tailwind CSS, APIs, Git, Figma

EXPERIENCE

JUNIOR FRONT END DEVELOPER @ (Zenmira BT)   (03/25 - ongoing)

- Took initiative to elevate code quality beyond team standards, enhancing sustainability and developer experience
- Achieved 6× faster local compilation and ~80% faster deployment times by optimizing build structure and reducing redundant code
- Built role-based dashboards with TypeScript and Next.js, enabling both admins and end-users to manage, track, and interact with system features through a clean, scalable interface
- Collaborated closely with back-end and UI team to align on API structure, improve handoff processes, and ensure smooth integration between design and functionality

FREELANCE WEB DEVELOPER @ (Laodikya Web)   (07/24 - 12/24)

- Designed and developed responsive, user-friendly websites
- Utilized latest web technologies and frameworks to create modern, efficient web solutions
- Managed client relationships, from initial consultation to project delivery and ongoing maintenance

BARBACK @ (Goldcity Hotel 5* - Alanya/TR)   (07/24 - 08/24)

- Effectively communicated in English and provided quick solutions to guests' questions and requests
- Supported special events and busy periods, showcasing adaptability and teamwork in high-pressure situations

WAITER @ (Beer & Bear Bistro - Izmir/TR)   (04/23 - 07/23)

- Contributed significantly to the highest turnover day, efficiently managing a high volume of orders and customers
- Seamlessly adapted into a new bistro team while helping their opening day

EDUCATION

- **freeCodeCamp -** Full Stack Web Development Program (2000+ hours)   2023 - 2024
- **Ege University -** American Literature and Culture (Attented to the Prep class)   2020 - 2021

SELECTED PROJECTS

- **emregnd.com:** Personal site with scroll and time-based animations.
- **Ethera Supplements:** Fictional supplement brand e-commerce website with 3D assets. Built cart and stock system.
- **Zen Tattoo:** One-page, modern and minimalist tattoo business website with scroll and time-based animations.
- **Letters App:** Letter-writing app with live markdown preview.

ADDITIONAL INFORMATION

- **Hobbies & Interests:** UI/UX design, 3D, Three.js, reading, spiritualism, workout, psychology, hiking.
- **Languages:** Turkish, English.
